

Maths The intent of our curriculum in Maths is to ensure that:

- CYP improve numeracy skills, particularly the 4 basic operations
- CYP experience success with maths
- CYP develop understanding using practical->pictorial->abstract development
- CYP develop independence in mathematics
- CYP develop understanding of subject specific meanings in context.
- CYP become familiar with multiplication facts and their division counterparts.
- CYP use their maths skills in practical ways and real life situations such as problem solving and money management.
- CYP gain a qualification in Maths at the appropriate level either Entry Level, Functional Skills or GCSE.
